

INTERNATIONAL MSS SCIENTIFIC CONGRESS

7–8 AUGUST 2021

Honorary Member of Malaysia Spine Society (MSS)

Professor Emeritus Dato' Dr Mohamad Bin Abd Razak is currently the Vice-Chancellor and President at University of Cyberjaya in Selangor, Malaysia. Additionally, he also serves as an Adjunct Professor of Orthopaedic at the Islamic International University of Malaysia (UIAM).

He was awarded the title of Professor Emeritus at Universiti Kebangsaan Malaysia (UKM) in 2021 for his tremendous contribution to the university when he served as the Deputy Vice-Chancellor (Research and Innovation Affairs).

His major research projects focused on innovations for treatment of Adolescent Idiopathic Scoliosis and received seven Gold Awards, four Silver Awards, three Bronze Awards for his inventions. He has 13 innovations and of which three has registered IP. As a dedicated researcher, he has 50 journals publications, 97 proceedings, and published 13 chapters in various books.

Professor Emeritus Dato' Dr Mohamad Bin Abd Razak was the President of the Malaysia Orthopaedic Association (MOA) (1997 – 1998), Chairman of the National Post Graduate Intensive Course in Orthopaedic, Kuala Lumpur (1994), Organising Chairman of the Post Conference on International Symposium on Spinal Fixation, Malacca (1994), Chairman of the International Instructional Course in Spine Surgery, Kuala Lumpur (1996), and National Chairman of the Board of Orthopaedic Postgraduate Committee (1996 – 1997). He was also the President of Doctor's Alumni UKM from 1999 to 2003 and the Chairman in charge of the National Orthopaedic Specialty Management.

He continues to serve as a role model to inspiring spine surgeons as a Visiting Consultant in Spinal Surgery for Hospital Kuala Lumpur and other hospitals in the Ministry of Health of Malaysia. He is a Professor of Orthopaedic and Spinal Surgery, Head of the Spinal Centre, and a Consultant Orthopaedic Surgeon (Spinal Surgery) at the UKM Medical Centre, and a Clinical Coordinator for the Department of Rehabilitation Medicine, Hospital Universiti Kebangsaan Malaysia. He is also an esteemed member of various societies as the President/Chairman and the Scientific Advisor of the Orthopaedic and Spinal Surgery Society in Malaysia.

Professor Emeritus Dato' Dr Mohamad Abdul Razak has been making every effort to improve Orthopaedic Surgery by offering advanced treatments instruments, especially in spinal surgery through his research and innovations. He is passionate about effective communication at the individual patient level within medical organizations and to the public. He has brought his relentless experience for the best in the quality of medical sciences. He is a committed partner to Malaysia Spinal Association with specialty services that contribute to society and excel in serving humanity.
